

Lost an important file?
Summon the Cloud Bear.

Yes, it's possible.

Safeguard your business data.

The information stored on your devices – from computers to mobiles and tablets – is critical to the smooth-running of your business. Yet every year, 43% of computer users globally lose irreplaceable files and 1 in 8 hard drives crash.[^] If your data isn't regularly backed up and safely stored off-site, disaster could be just a keystroke or power failure away.

INTRODUCING OPTUS OFFICEAPPS BACKUP

Optus OfficeApps Backup helps you safeguard your business with a solution that regularly backs up the primary hard drive[†] of your compatible computers, tablets and mobiles. It's a great alternative to commonly used external hard drives because it safely stores a copy of your data off-site in the cloud.

OPTUS OFFICEAPPS BACKUP ALSO GIVES YOU:

- > **Peace of mind:** that your business-critical data is automatically backed up so you can 'set and forget'
- > **Business continuity:** with easy recovery of your data, so your business can keep running smoothly
- > **Centralised management:** manage the data on your employees' devices through the Optus OfficeApps online portal.

FEATURES:

- > Automatic backup for up to 5 devices per user including PCs, Macs, tablets and mobiles, with compatible operating systems
- > Unlimited backup allowance available on selected plans
- > Data encryption on transfer
- > Unmetered usage of OfficeApps Backup over Optus Mobile and Business Mobile Broadband*
- > End-user support, via phone and web chat.

ABOUT THE CLOUD

The cloud is masses of computers or 'server farms' in different parts of the world. Computing is moving towards the cloud because it's considered to be a more convenient, cost-effective and safer way of storing and accessing files than in your own office. And with your files stored in the cloud, they are accessible from anywhere, on almost any device with an available internet connection.

MONTHLY ACCESS FEE

	\$10 First month free	\$90	\$150	\$300
No. of users	Up to 5 users	Up to 10 users	Up to 20 users	Up to 50 users
Total backup allowance of primary hard drives [†] (To use across your account)	20GB [†]	Unlimited [†]	Unlimited [†]	Unlimited [†]
Add extra users	NA	\$6 per user per month	\$6 per user per month	\$6 per user per month

Please note: [†]Excludes external hard drives and partition drives and selected file types for mobiles and tablet devices, depending on operating system. *Backing up your computer will count towards your data limit.

Terms & Conditions. [^]Source: Gartner 2009. **Optus OfficeApps Backup plans:** Only available for new or eligible existing small or medium business customers as defined by Optus who pass the Optus credit assessment and are accepted by Optus. Before using and accessing OfficeApps Backup, customers must enter into separate agreements, and accept the terms contained in those agreements, for: 1. OfficeApps Support Desktop Client End User Licence Agreement; 2. The F-Secure End User Licence Agreement. The OfficeApps Backup plans are account level month-to-month plans. **Included data usage from an Optus Mobile or a Business Mobile Broadband service to the Backup plans:** Only available in Australia and requires all the services to be on the same account. Use of the Backup service does not count towards your included data if using an eligible Optus Mobile or Optus Business Mobile Broadband plan with the required equipment. **Services not included:** The Backup plan requires a broadband and/or 3G/HSPA internet connection to work. The Backup plan does not include a broadband or 3G/HSPA internet connection, you must arrange this with Optus or another provider before connecting to this service. Web viewing for mobile backup files is not available. **Required Equipment:** To access the Backup service you must have one of the following operating systems Windows 7 32-bit and 64-bit: all editions, Windows Vista 32-bit and 64-bit: all editions, all Service Packs, Windows XP 32-bit: Home, Professional: Service Pack 3 or newer, Mac OS X 10.4 Tiger, Mac OS X 10.5 Leopard, Mac OS X 10.6 Snow Leopard, Mac OS X 10.7 Lion. For mobile backup service must have a 3G enabled device with SMS capability with one of the following operating systems: Android and above 2.0, Symbian S60 3rd edition FP2, S60 5th edition, Symbian^3. Optus reserves the rights to update the list of compatible devices at any time. **Specials:** Customers signing up for the OfficeApps 20GB up to 5 users Backup plan are eligible for 1 month free access offer. The monthly access charge of \$10 will be credited to the customer's account in the first month. **General:** On cancelling the OfficeApps Backup plan you will lose all your backup data permanently. All plans and offers are subject to the Optus Acceptable Use™ policy. For details of all your plans' inclusions and exclusions, see optus.com.au/standardagreements.
